Our Story

For years we longed to work for ourselves. Finally one day in 2010 we did it! We jumped into the unknown and built our American Dream...

Here we are now handing over the reigns to our children and treasured employees.

We are so very proud of what we have accomplished and can't wait to see what the next generation of Friends will become.

Our story may be ending, but the next story now begins!

We thank everyone who has ever stepped foot through our doors and helped us live our American Dream.

My cell number is 678.371.8888 and my email is BadLiSusie@aim.com. Ray's cell number is 678.517.0430 and his email is RayStanjevich@yahoo.com. If you ever need us for anything, please contact us. We will answer our phones - unless we are cooking or bussing tables. :)

God bless, Suzanne and Ray

FOOTBALL

Wings Story

Deep fried chicken wings have long been a staple of Southern Cooking.

But, the rise of the chicken wing and its connection to American football all had to do with timing. Cooking the whole bird was trendy in the 60's and 70's, but in the 80's the US consumers started preferring boneless-skinless breast meat. And, so, wings became an inexpensive byproduct for chicken producers. Restaurants and bars realized they could charge low prices for the relatively inexpensive protein. And due to the spicy/salty nature of Buffalo sauce, they also discovered that beer sales would go through the roof when customers ate wings.

What used to be an inexpensive byproduct, has now become an entire industry. Chicken Wings now sell for a premium compared to boneless-skinless chicken breast. And this year alone, Americans will eat 1.42 BILLION chicken wings for the Super Bowl.
